INTRODUCTION

Hello! My name is Kangqiang Yang and I am currently an undergraduate student majoring in Computer Science at California State University, Northridge. Strong growth mindset, addicted to learning, love problem solving, have a strong interest in front-end development, and the programming languages that I have experience that including HTML+CSS, JS, REACT, NEXTJS, TailwindCSS, NodeJs.

SKILLS

HTML+CSS, JS, NodeJs, REACTJS, NEXTJS, TailwindCSS, Git, Jira, MongoDB, Firebase.

PROJECT EXPERIENCE

Pizza Order Web-Application - Pizza Order Website

This project is Pizza Order Website, the site uses React, TailwindCSS, Firebase, NodeJS,NextJS, MongoDB, Redux, Paypel technology and framework, the **main functions** include, Browser Pizza Product, Select Pizza and Add pizza to shopping Cart, Browser shopping Item and Pay with Paypel, It also includes the Product Admin Page, it allows admin user to add, update, delete the Pizza and also operate the Orders.

- **Techs**: React,NextJs, TailwindCSS, NodeJS, MongoDB, Redux, Paypel.
- **Deploy URL**:   https://react-next-pizza-shop.vercel.app/.
- **Github Link**: https://github.com/kangqiangyang8243/React_Next_PizzaShop.
- **Project Gain**:
    - Deepen the operation of Node and MongoDBCRUD
    - Understand how the API is built in NEXTJS and the operation of adding and deleting calculations in REDUX
    - Get in touch to understand how the paypel payment method is implemented in React

Tiktok Clone - Short-Video Browsing Website

This project is a short video browsing website based on www.tiktok.com mockup using React, NextJS, TailwindCSS, Firebase technologies and frameworks. The **main features** include, user account registration/login, uploading videos and video information and video categories, browsing videos and making likes and comments, browsing account information and viewing the account, browse videos according to different categories, search for videos/users

- **Techs**: React, TailwindCSS, Firebase.
- **Deploy URL**: https://react-next-tiktok-clone.vercel.app.
- **Github Link**: https://github.com/kangqiangyang/React_Next-Tiktok_clone.
- **Project Gain**:
    - Understand and deepen the video upload, user and keyword search functions.
    - Display pages according to different categories and display related data。

Realtor Clone - Real Estate Website

This project is based on www.realtor.com mock up of a real estate website, the site uses React, TailwindCSS, Firebase, Recoil technology and framework, the **main functions** include, user account registration / login, upload house for rent / sale, change / delete house information, browse house address, browse house information, mail Contact the owner of the house.

- **Techs**: React, TailwindCSS, Firebase, Recoil.
- **Deploy URL:** https://react-realtor-clone-jet.vercel.app/.
- **Github Link:** https://github.com/kangqiangyang/React-Realtor-clone.
- **Project Gain**:
  - Have a deeper understanding of Firebase's CRUD and multi-image upload to the cloud

EDUCATION

Pasadena City College, Pasadena,LA — *Associate Degree*

Aug 2018 - June 2021

Cal State University, Northridge,LA — *BS Degree (pursuing)*

Aug 2021 - Current
